| [Portfolio](#)

Professional Summary

AI & Data Science undergraduate with hands-on experience in Python, SQL, Pandas, NumPy, and Power BI, specializing in data cleaning, exploratory data analysis (EDA), data wrangling, statistical analysis, and dashboard development. Skilled in transforming raw, unstructured data into actionable business insights through data visualization, KPI tracking, and reporting. Currently building real-world data analytics and business intelligence projects and seeking a Data Analyst internship opportunity.

Education

B.Tech in Artificial Intelligence & Data Science

2024 – 2028

Rajasthan Institute of Engineering and Technology, Jaipur *Specialization: Artificial Intelligence & Data Science*

- CGPA: 8.04/10 (through 3rd Semester; 4th Semester completed, 5th Semester in progress)

Technical Skills

Languages: Python, SQL (MySQL), HTML, CSS

Libraries & Visualization: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, Plotly, Streamlit Dashboards, Power BI, Tableau

Tools & Platforms: Git, GitHub, Jupyter Notebook, VS Code, MS Excel

Core Competencies: Data Cleaning, Data Wrangling, Exploratory Data Analysis (EDA), Statistical Analysis, Data Visualization, Dashboard Development, Business Intelligence (BI), KPI Tracking & Reporting, Trend Analysis

Experience

Frontend Web Development Intern

Jun 2025 – Jul 2025

Firewall IT Solutions, Balotra

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Improved UI based on modern design principles.
- Worked on live client projects.
- Collaborated with team members to implement frontend features.

Projects

Amazon Sales Analysis Dashboard [[Live Link](#)]

Python • Streamlit • NumPy • Pandas • Plotly

- Built an interactive Streamlit dashboard performing exploratory data analysis (EDA) on Amazon sales, profit, customer segments, and product performance.
- Cleaned and transformed a 1000+ record sales dataset using Pandas, applying data wrangling and preprocessing techniques via reusable modules.
- Conducted statistical and trend analysis with 10+ dynamic Plotly visualizations covering sales trends, category performance, regional analysis, top-selling products, profit analysis, and KPI tracking for data-driven business insights.

Railway Train Analysis Dashboard [[Live Link](#)]

Python • Streamlit • NumPy • Pandas • Plotly

- Built an interactive Streamlit dashboard performing data analysis on railway train, station, and schedule data.
- Cleaned and processed raw JSON datasets using data wrangling techniques while developing reusable data-loading modules.
- Delivered real-time filters and 8+ dynamic Plotly visualizations for train, station route, and schedule analysis, enabling clear data-driven reporting.

Certifications

Deloitte Australia — Data Analytics Job Simulation (Forage) [[View Certificate](#)]

2026

- Completed a Deloitte job simulation involving data analysis and forensic technology.
- Created a data dashboard using Tableau.
- Used Excel to classify data and draw business conclusions.
